7.	Brief Job Role Description	<p>Multipurpose Assistant in Furniture Production and Installation is a beginner who assists in interpreting work dockets, conducting work site recce, compiling lists of required materials, tools, and equipment, and setting up the work area as per operational needs. This individual may choose a specialization from a range of options, such as store/warehouse operations, woodworking, machine shop operations, furniture finishing, upholstery, furniture packaging, or furniture installation operations. The role involves supporting the smooth execution of tasks and maintaining an organized work environment.</p>										
8.	NCO-2015 Code & Occupation <i>(Access the NCO 2015 volumes from: https://labour.gov.in/organizationsofmole/directorate-general-employment-training-dget)</i>	NCO-2015/7115.9900										

<p>9.</p>	<p>Minimum Eligibility Criteria <i>(Educational and/ or Technical Qualification)</i></p>	<p>10th Class with NA of experience OR 8th grade pass with 1 year of (NTC/ NAC) after 8th with NA of experience OR 8th grade pass and pursuing continuous schooling with NA of experience OR 9th grade pass (Pursuing continuous schooling in regular school) with NA of experience OR 9th grade pass with 1 Year of experience Relevant Experience OR 8th grade pass with 2 Years of experience Relevant Experience OR 5th grade pass with 5 Years of experience Relevant Experience OR Previous relevant Qualification of NSQF Level (Foundation course on Design-Build-Install at Level-2) with 3 Years of experience Relevant Experience</p>

Module Details

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
1	Introduction to the role of a Multipurpose Assistant- Furniture Production and Installation Bridge Module	<ul style="list-style-type: none"> Describe the Furniture production trade and its scope in the Interiors, furniture, and fittings sector. Describe the roles and responsibilities of Multipurpose Assistant and the reporting levels. Explain the transition to Level-4 based on specialization selected with an overview of the apprenticeship program. Describe the mechanics of job card scheduling. Follow all the organizational policies and schedules applicable to the Multipurpose Assistant job role while working. Practice job card management in every assigned task for effective work monitoring. Demonstrate the elements of the code of conduct with the employer while working. 	0	0	0	0
2	Introduction to types of materials, tools and equipment, machines Bridge Module	<ul style="list-style-type: none"> Describe common types and characteristics of solid wood. Identify and describe the application of engineered wood products. Describe how lumber is milled, seasoned, stored, and ordered. Explain the safe usage of different hand and power tools. Describe the fasteners and adhesives used for wood and wood derivative materials. Describe the types and uses of sanding abrasives. Describe the routine maintenance process for using different hand, power, and machine tools. 	0	0	0	0

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Differentiate between different types of wood species and wood derivative materials. • Differentiate between the thickness and size of different engineered wood derivate materials. • Identify various types of architectural hardware and their technical specifications. • Practice the installation of a range of hardware and accessories. • Inspect the safe working of tools and equipment before usage. • Perform the calibration of required tools and equipment before usage. • Practice the usage of various hand tools in the woodworking process. • Practice the usage of various portable power tools in the woodworking process. • Practice the usage of various stationary power tools in the woodworking process. • Practice the usage of a portable sander for finishing processes. • Demonstrate the safe operation and regular maintenance of portable planning and shaping equipment. • Demonstrate the steps involved in using a miter saw and circular saw. • Practice the usage of different marking tools for the fabrication of components. • Demonstrate the steps involved in the sharpening of hand tools and machine blades. • Perform the fabrication of assigned projects using appropriate fasteners, adhesives, hand, and power tools. 				

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
3	<p>Work docket interpretation</p> <p>Mapped to FFS/N0901, v1.0</p>	<ul style="list-style-type: none"> • Define the job card's purpose, scope of work, objectives, resource requirements, and interpret the card to identify specific tasks and deliverables. • List the components of work dockets, with a focus on timely job cards submission. • Describe the interpretation of technical drawings, emphasizing precision through symbol differentiation. • Explain the importance of part list, cutting list, material list, and equipment list, highlighting the significance of each component. • Apply critical thinking skills to assess job card information, ensuring all details align with project requirements before execution. • Demonstrate effective communication skills in discussing and clarifying job card details with supervisor, promoting a collaborative work environment. • Demonstrate precise completion of job cards, ensuring accurate recording of relevant details and timely fulfillment. • Implement time-management strategies to complete job cards accurately and promptly, adhering to project timelines and deadlines. • Organize work dockets proficiently, integrating all essential information. • Utilize problem-solving techniques to address anomalies or missing elements within work dockets, fostering a proactive approach to job preparation. • Identify and interpret crucial components in technical drawings, including plans, elevations, and exploded views, showcasing practical proficiency. 	8	40	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Display the ability to translate and visualize 2D representations from technical drawings into a comprehensive understanding of designs, ensuring practical application. • Apply proficiency in reading and comprehending part lists, cutting lists, material lists, and tools and equipment lists. • Conduct practical exercises in reading and interpreting diverse lists associated with woodworking projects, reinforcing organizational skills in a workshop setting. 				
4	<p>Recce of the worksite</p> <p>Mapped to FFS/N0901, v1.0</p>	<ul style="list-style-type: none"> • Discuss the steps involved in preparing a comprehensive recce list for effective reconnaissance. • Explain the significance of maintaining a clean work area and its impact on precise marking and measurement activities. • Describe the role of a physical site survey in the broader context of furniture design and manufacturing processes. • Illustrate accurate marking techniques in accordance with layout and plan specifications. • Discuss the significance of timely compilation and accurate documentation of measurements for effective communication and record-keeping. • Identify and gather essential materials, tools, or equipment for recce, demonstrating an understanding of basic project requirements. • Plan and prepare materials and tools systematically, adhering to guidelines for efficient recce activities. • Use basic tools to clean and organize the work area, removing debris for a clutter-free space conducive to marking and measurement tasks. 	10	42	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Inspect the worksite for basic safety hazards during site survey activities. • Prepare a basic checklist specific to project requirements, ensuring a structured approach to basic site survey tasks. • Execute a basic physical site survey, following a predefined checklist and collecting fundamental data, measurements, and relevant information. • Demonstrate basic proficiency in using appropriate tools and techniques for recce data collection. • Employ effective digital data collection methods, like mobile applications, for basic recording of measurements and observations. • Demonstrate basic proficiency in translating straightforward design plans into on-site markings with accuracy. • Perform basic marking at the worksite based on provided layout and plan, using simple tools and techniques. • Follow basic quality control measures during the marking process, ensuring markings align with basic project specifications. • Compile basic measurements systematically in the measurement sheet, ensuring basic clarity and precision. • Utilize digital tools or software for measurement and site data compilation, promoting efficiency and reducing the likelihood of basic errors in data entry. • Carry out timely handover of the basic measurement sheet to the supervisor, demonstrating effective communication.

			Th.	Pr.	Th.	Pr.
5	<p>Interpret and organize process pre-requisites</p> <p>Mapped to FFS/N0902, v1.0</p>	<ul style="list-style-type: none"> • Discuss the various operations and departmental roles essential in the production process. • List and describe different types of raw materials, tools, and equipment, emphasizing their significance in production. • Explain the importance of a material movement plan in optimizing workflow and coordinating across departments. • Describe the roles and responsibilities of different departments involved in the efficient movement of materials. • Highlight the key potential challenges and considerations related to material selection and movement in the production process. • Perform the task of identifying and listing the number of operations and departments involved in a given production process, showcasing foundational knowledge. • Demonstrate adeptness in compiling and organizing lists of materials, tools, and equipment with precision and efficiency for streamlined accessibility. • Exhibit proficiency in executing tasks related to organization of essential raw materials, tools, and equipment from various departments. • Utilize suitable techniques for material selection, considering factors such as specifications, compatibility, and availability within the woodworking environment. • Showcase the capability to create a material movement plan, delineating sequences and departmental involvement in the production process. 	5	29	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Illustrate proper techniques for the handling, storage, and transportation of materials in a woodworking environment, emphasizing safety and efficiency. • Employ acquired knowledge of material list content and material movement plans in the safe and efficient execution of the handover process to the relevant department. • Implement effective strategies and techniques to ensure strict adherence to defined timelines, incorporating sound time management, prioritization, and coordination practices to achieve project goals. • Display fundamental skills in time management and coordination to efficiently meet project deadlines. 				
6	Material inspection and selection Mapped to FFS/N0902, v1.0	<ul style="list-style-type: none"> • Describe the importance of precise measurement techniques and tools. • Discuss the significance of proper marking methods for material identification. • Explain the importance of architectural hardware and fittings in furniture projects. • Explain the usage of different materials for finishing in furniture projects. • Explain the usage of different materials for upholstery in furniture or interior design projects. • List common quality defects in materials and associated mitigation procedures. 	6	41	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Implement effective measurement techniques for precision in material assessment. • Measure materials using suitable techniques, tools, and units of measurement for furniture fabrication processes. • Utilize appropriate marking methods and techniques to facilitate effective communication and easy identification during fabrication activities. • Identify and inspect architectural hardware and fittings, ensuring compatibility with specific requirements. • Evaluate different materials for finishing requirements, based on their unique types, characteristics, and suitability in furniture production. • Assess various materials for upholstery requirements, considering their types, characteristics, and appropriateness for the furniture fabrication process. • Verify tools, equipment, and spares, ensuring their compatibility and adherence to specific requirements in the furniture production environment. • Inspect and validate semi-finished and finished goods, considering their types, quality, and specifications. • Perform thorough quality checks on materials through inspection, testing, and evaluation against established standards. • Recognize and promptly report any quality defects or anomalies in woodworking materials or relevant industries. 				

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
7	<p>Material loading, unloading, and movement</p> <p>Mapped to FFS/N0902, v1.0</p>	<ul style="list-style-type: none"> Describe the role of instruction sheets in ensuring safe and efficient material operations. Explain the factors involved in selecting appropriate handling equipment for specific material requirements. List and describe proper operation and control techniques when using handling equipment for material shifting. Discuss safety precautions and procedures for operating handling equipment during material handling activities. Demonstrate the steps involved in accurate interpretation of material loading and unloading sheets. Optimize resource allocation for efficient material handling operations. Display proficiency in selecting handling equipment tailored to material characteristics. Perform the operation of handling equipment for secure material shifting, adhering to safety protocols. Identify and address discrepancies or issues in real-time material handling scenarios. Adhere rigorously to safety protocols during handling equipment operation. Execute accurate and timely record-keeping for efficient material tracking and management. Collaborate effectively with team members for a cooperative and coordinated workflow. 	2	17	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
8	Worksite preparation for required operation Mapped to FFS/N0903, v1.0	<ul style="list-style-type: none"> • Explain the importance of work area preparation for operational efficiency and safety. • Explain the purpose and significance of inspecting incoming goods as per specifications. • Highlight the importance of proper unpacking and arrangement for efficient workflow. • Highlight different methods for handling and transporting materials, tools, and equipment. • Describe the importance of segregating and storing materials efficiently. • Demonstrate precise work area preparation, including tool, equipment, and material setup, following supervisor's instructions. • Perform a thorough inspection of goods upon receipt, adhering to predefined quality and quantity specifications. • Execute systematic unpacking of materials, arranging furniture parts, and organizing tools and equipment as per provided instructions. • Select suitable containers based on item type and size, ensuring secure storage and facilitating easy accessibility. • Demonstrate effective and safe usage of material handling equipment for efficient material handling and storage. • Execute secure handling methods for goods during storage, preventing damage or deterioration. • Apply safety protocols consistently throughout material handling and storage activities, ensuring a secure work environment. • Showcase proficiency in applying various stacking techniques to optimize material storage efficiency. • Apply benchmarking techniques to ensure systematic and accessible material storage according to industry standards. • Use labeling and tracking systems to accurately identify and locate stored items for streamlined retrieval. 	6	30	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
9	Maintenance of the work area Mapped to FFS/N0903, v1.0	<ul style="list-style-type: none"> • Explain effective management of materials, tools, equipment, and products in woodworking. • Discuss the usage of measuring instruments for assessing dimensions of products. • Explain the importance of maintaining a clean work area for safety and productivity. • Describe appropriate cleaning methods for various surfaces and materials. • Demonstrate the skills to organize storage and retrieval of materials, tools & equipment in woodworking. • Use designated bays for efficient storage and retrieval of materials, tools, and finished products. • Apply effective techniques to achieve desired outcomes. • Rigorously apply safety protocols during task execution, minimizing the risk of accidents or injuries. • Apply accurate measurement techniques for assessing dimensions of semi-finished parts and finished goods in woodworking. • Perform routine maintenance tasks to ensure optimal condition and longevity of semi-finished parts and finished goods. • Demonstrate efficient worksite cleaning using suitable materials and tools, maintaining a tidy woodworking environment. • Analyze worksite for safety hazards related to cleanliness, taking proactive measures to mitigate potential risks. • Effectively communicate safety concerns related to cleanliness and organization for continuous improvement. 	8	56	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> Perform duties in the safe disposal of combustible waste products, strictly following guidelines for environmental compliance. Demonstrate accurate job work documentation at the end of each shift, ensuring thorough record-keeping. 				
10	Health and safety practices at the worksite Mapped to NOS/N8201, v3.0	<ul style="list-style-type: none"> Describe the accident reporting requirements and first aid responses to common injuries. Describe the requirements for the usage of personal protective equipment. Describe the safe work practices used in a workshop and on-site. Describe potential health hazards related to on-site work. Explain the organizational practices associated with the health and hygiene practices at the workplace. Apply the standard work practices used in a workshop and on-site. Select and use appropriate personal protective equipment. Apply the concepts of personal safety awareness and practices while working at the worksite. Carry out routine cleaning of workplace, tools, and equipment. Perform the inspection of the work area for health and safety breaches. Practice the usage of emergency equipment like Fire extinguishers in emergencies and accidents. Practice the first aid responses using a first aid kit. Perform mock drills at regular intervals for health and safety purposes. Follow the company’s emergency procedures promptly, calmly, and efficiently. 	24	50	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> Deal with hazards, as per the procedure, safely, competently, and within the limits of authority. Record all the health and safety records legibly and accurately. Report safety and security breaches or any hazards to the company's designated person. Demonstrate effective application of 5S principles at the workplace. 				
11	Greening practices at the worksite Mapped to NOS/N8201, v3.0	<ul style="list-style-type: none"> Explain the importance of efficient utilization and conservation of material. State the difference between renewable and non-renewable sources of energy. Differentiate between recyclable and non-recyclable waste. Explain the importance of performing greening practices at the worksite. Explain various types of waste generated at the worksite and their safe disposal processes. Follow the organizational standards and policies for safe waste disposal at the worksite. Practice the efficient disposal of various types of waste. Select appropriate waste disposal methods based on worksite requirements Practice energy conservation practices while working at the worksite. Check the tools and equipment for proper functioning. Report the faults and maintenance lapses in the tools and equipment to the concerned personnel effectively, if required. 	11	15	70%	70%

			Th.	Pr.	Th.	Pr.
12	Employability Skills Mapped to DGT/VSQ/N0101, v1.0	<ul style="list-style-type: none"> • Discuss the practical impact of Employability Skills on meeting job requirements. • Execute basic constitutional values, civic rights, duties, citizenship, and demonstrate responsible citizenship. • Apply 21st-century skills in practical scenarios. • Utilize simple English sentences/phrases effectively while speaking. • Demonstrate practical and respectful interactions with all genders and People with Disabilities (PwD). • Report instances of sexual harassment promptly and practically. • Implement the secure use of financial products and services in practical situations. • Practice practical management of expenses, income, and savings. • Engage with relevant authorities promptly in cases of exploitation, adhering to legal rights. • Demonstrate the safe and practical use of the internet for browsing and social media. • Identify practical business opportunities, sources of funding, and anticipate legal and financial challenges. • Distinguish between different types of customers in practical scenarios. • Meet practical customer needs through understanding and addressing them. • Implement personal hygiene and appropriate dressing practices in practical situations. • Dress neatly and maintain hygiene practically for interviews. • Guide on practically searching and registering for apprenticeship opportunities. • Implement environmentally sustainable practices in practical ways. 	20	30	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Display a practical positive attitude, motivation, problem-solving, time management, and a learning mindset. • Communicate politely and practically with others. • Collaborate effectively with others in a team in practical situations. • Operate digital devices and applications securely in practical scenarios. • Develop a practical biodata. • Utilize various practical sources to find and apply for jobs. 				
13	Material inspection and movement at store or warehouse Mapped to FFS/N0904, v1.0	<ul style="list-style-type: none"> • Explain receiving goods procedures, emphasizing quantity and quality checks. • Discuss distribution and storage processes for various products in a store or warehouse. • Explain proper loading, unloading, and packaging techniques for woodworking goods. • Explain the process of recording and tracking the flow of dispatched goods within the organization. • Illustrate packaging standards, labeling, and documentation for dispatching rejected goods to vendors. • Demonstrate the ability to inspect incoming goods for quality and quantity against purchase orders or specifications. • Display proficiency in identifying and recording discrepancies in quality or quantity. • Apply documentation skills to record and report findings related to the quality compliance of incoming goods. • Perform goods preparation for storage by applying appropriate packaging methods. 	6	32	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Display effective labeling techniques for easy identification during storage or distribution. • Demonstrate the application of knowledge in internal coordination processes for the efficient dispatch of goods to concerned departments. • Use proper packaging and labeling/tagging methods during material movement coordination. • Execute proper tools and techniques for safe loading and unloading operations. • Apply established procedures for handling rejected goods. • Demonstrate use of appropriate packaging and labeling requirements for the efficient return of rejected items. • Facilitate effective communication channels with vendors for rejected goods. • Use clear and accurate information relay regarding rejected items for efficient return processes. • Demonstrate an awareness of areas for process improvement in incoming goods inspection and preparation. • Perform accurate and organized documentation of goods for distribution processes. 				
14	Inventory Management of store or warehouse Mapped to FFS/N0904, v1.0	<ul style="list-style-type: none"> • Discuss monitoring stock inventory for efficient goods storage. • Explain the importance of regular stock checks and reconciliation for accurate inventory levels. • Describe the significance of accurate record-keeping for all inventory transactions in woodworking storekeeping. 	4	29	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Explain the importance of accurate and timely order processing in woodworking storekeeping, outlining key procedures. • Describe the role of inventory management systems and software in woodworking storekeeping. • Demonstrate effective monitoring of inventory levels through regular stock inspections. • Apply inventory management standards for correct storage practices in a storehouse. • Prepare a comprehensive list of stock check tools for use in inventory management. • Verify stock locations accurately for efficient stock counting processes. • Conduct physical stock counts in a storehouse using prepared tools and verified stock locations. • Demonstrate accurate record-keeping skills for all inventory transactions. • Record receipts, storage activities, and dispatch operations with precision. • Use inventory management systems for processing orders. • Enter and update order information accurately to ensure up-to-date records. • Track order status efficiently using inventory management systems. • Perform timely updates on order progress for effective decision-making. • Generate relevant reports using inventory management software. • Adhere to inventory management standards in all stock-related activities. 				

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> • Ensure compliance with industry best practices for efficient inventory handling. • Communicate effectively within the team regarding inventory-related updates and requirements. 				
15	<p>Clean and maintain the store or warehouse</p> <p>Mapped to FFS/N0904, v1.0</p>	<ul style="list-style-type: none"> • Describe the importance of maintaining clean, organized storage areas in a furniture store/warehouse. • Explain the significance of regular maintenance for equipment and machinery in a furniture store/warehouse. • Discuss waste disposal guidelines and regulations in the furniture store/warehouse, focusing on environmental and safety considerations. • State the importance of effective note-taking for inputs received from the supervisor. • Demonstrate the ability to effectively maintain, clean, and organize storage areas in a furniture store/warehouse, ensuring adherence to safety standards. • Perform routine maintenance procedures for equipment and machinery in a furniture store/warehouse to guarantee optimal working order. • Execute precise disposal of unwanted materials following waste disposal procedures. • Adhere to environmental compliance guidelines during the disposal of materials, applying responsible and eco-friendly practices. • Apply effective methods for recording and incorporating inputs and feedback from supervisors into daily operations. 	6	23	70%	70%

S. No	Module/NOS Name, Code, Version	Outcomes	Assessment Marks		Passing Percentage	
			Th.	Pr.	Th.	Pr.
		<ul style="list-style-type: none"> Maintain accurate and up-to-date documents/notes as required in a storehouse, ensuring efficient record-keeping practices. Communicate with supervisors, demonstrating proactive engagement and responsiveness to feedback for continuous improvement. 				
Total Marks			116	434	70%	

Glossary

Term	Description
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Declarative Knowledge	Declarative knowledge refers to facts, concepts, and principles that need to be known and/or understood in order to accomplish a task or to solve a problem.
Key Learning Outcome	Key learning outcome is the statement of what a learner needs to know, understand and be able to do in order to achieve the terminal outcomes. A set of key learning outcomes will make up the training outcomes. Training outcome is specified in terms of knowledge, understanding (theory) and skills (practical application).
OJT (M)	On-the-job training (Mandatory); trainees are mandated to complete specified hours of training on-site
OJT (R)	On-the-job training (Recommended); trainees are recommended the specified hours of training on-site
Procedural Knowledge	Procedural knowledge addresses how to do something or how to perform a task. It is the ability to work or produce a tangible work output by applying cognitive, affective, or psychomotor skills.
Training Outcome	Training outcome is a statement of what a learner will know, understand and be able to do upon the completion of the training.
Terminal Outcome	The terminal outcome is a statement of what a learner will know, understand and be able to do upon the completion of a module. A set of terminal outcomes help to achieve the training outcome.

Annexure 1: Tools and Equipment

List of Tools and Equipment

For a Batch size of 20 Candidates

The tools and equipment required are:

S. No.	Tool / Equipment Name	Specification	Quantity for specified Batch size (In Nos)
1	White Board/ Green Board		1
2	Board Marker	2 Different color board markers with respective refill ink containers	2
3	Duster		1
4	Projector/ Smart TV		1
5	Laptop	With proper configuration to run MS Office applications	1
6	Chairs	With foldable study flaps- For theory lectures	20
7	Trainer's Table/ Podium		1
8	Working Bench- Foldable		5
9	Bench Vice		20
10	Ear Plug	Material: Foam/Rubber, Noise Reduction Rating: ANSI certified	20
11	Hand Gloves	Material: Leather/Rubber, Size: Various sizes available	20
12	Nose Mask	Type: N95 Respirator, Fit: Adjustable nose clip	20
13	Safety Shoes	Material: Steel toe, durable, Compliance: Meets safety standards	20
14	Goggles	Type: Safety goggles, Lens: Impact-resistant	20
15	Dustbin	Material: Durable plastic/metal, Capacity: Appropriate for waste generated	5
16	Fire Extinguisher	Type: ABC Dry Chemical, Size: As per safety regulations	1
17	First Aid Kit	Contents: Bandages, antiseptic, etc., Compliance: Meets workplace safety standards	1

18	Carpentry Pencil	Type: Standard carpenter's pencil, Lead: Hard for durability	20
19	Notebook	Size: Standard notebook, Paper: Durable with grid lines	20
20	Measurement Tape	Length: 5 meters, Material: Durable, marked in metric units	20
21	Screw Driver with bit set	Types: Various screwdriver heads, Material: High-quality steel	1
22	Allen Key Set	Sizes: Various sizes, Material: High-quality steel	1
23	Type of Wood- Samples	Examples: Oak, Maple, Pine	2
24	Types of Veneers- Samples	Examples: Walnut veneer, Oak veneer	2
25	Types of Laminates- Samples	Examples: High-pressure laminate, Low-pressure laminate	2
26	Types of Metal- Samples	Examples: Aluminium, Steel	2
27	Types of Ply- Samples	Examples: Marine Plywood, Birch Plywood	2
28	Types of Wood Derivatives- Samples	Examples: MDF (Medium Density Fibreboard), Block boards, Particle boards	2
29	Types of Hinges- Samples	Types include: Butt, Auto Closing Hinge- 0 crank, 9.5 crank, 9.5 crank, 16 crank	2
30	Types of Hardware Channels- Samples	Types include: Quadro, Telescopic	2
31	Types of Lock Sets- Samples	Types include: Mortise, Multipurpose, Cylinder	1
32	Minifix Set	Set includes: Dowel, Nylon insert, Cam Lock, Minifix bolt	10
33	Weighing Scale	Type: Digital, Capacity: As per specifications	1
34	Barcode Scanner	Type: Handheld, Compatibility: Barcode types	1
35	Pallets/Skids	Material: Wood/Plastic, Size: Standard sizes	1
36	Strapping Tools	Type: Manual/Powered, Compatibility: Strapping materials	1
37	Scissors/Box Cutters	Types: Scissors, Box Cutters	1
38	Trolleys/Carts	Type: Handcart, Capacity: As per specifications	2

39	Stocktaking Sheets/Forms	Type: Printable, Format: Excel/Sheets	2
40	Counting Scales	Type: Digital, Capacity: As per specifications	1
41	Inventory Management Software	Features: Tracking, Reporting, User-friendly	1
42	Spreadsheet Software	Type: Excel/Sheets, Features: Calculation, Charting	1

Classroom Aids

The aids required to conduct sessions in the classroom are:

1. White Board/ Green Board
2. Board Marker
3. Duster
4. Projector/ Smart TV
5. Laptop
6. Chairs (For theory lectures)
7. Trainer's Table/ Podium
8. Storage Cabinet

Annexure 2: Assessment Strategy

This section includes the processes involved in identifying, gathering, and interpreting information to evaluate the apprentice on the required competencies of the program.

At FFSC, we believe to gauge the performance of a candidate a holistic approach for assessment is essential. As such we have devised a multi-tier process to keep track of candidate overall progress at various stages. While a few techniques are imbibed as part of the training delivery program, others are explicit ways of testing. These are:

1. Internal (Preferred)
 - a. Trainer Led Assessment
 - b. Master Trainer/ Program Mentor Led Assessment
2. External
 - a. Assessment Partners/ Freelance Assessors (Mandatory)
 - b. Industry (Preferred)

1. Internal (Preferred)

a. Trainer Led Assessment:

As part of the Training Delivery Program, various tests and projects are designed at regular intervals to gauge the progress of the candidate during the training program. These are mix of Theory and practical, individual and group activities.

Trainers will be provided specific training under the ToT programs to conduct these assessments. A report of the same will be submitted to the assigned Master Trainer/ Program Mentor.

b. Master Trainer/ Program Mentor Led Assessment:

Every trainer/ batch should be connected with a Master Trainer/ Program Mentor, who will keep a check on the progress of the batch. Trainer can consult the Master Trainer/ Program Mentor with regards to training delivery or conducting periodic assessments.

Master Trainer/ Program Mentor may conduct their own session to assess the progress of the candidates, using the means as deemed suitable and feasible.

2. External

a. Assessment Partners/ Freelance Assessors:

An external assessment shall mandatorily be conducted by Assessment Partners via ToA certified Assessors or ToA certified Freelance Assessors. There are 3 key stages of any assessment activity – Pre-Assessment, During Assessment and Post Assessment. The defined system for conducting the assessment shall be followed at each stage.

FFSC Training and Assessment Team or any other assigned authority by FFSC, may conduct surprise or planned visits and checks from quality assurance and monitoring perspective.

The requirements and details of each stage are as highlighted below:

1. Pre-Assessment:

- a. Assessment Partner/ Assessor/ Freelance Assessor Validation
- b. Training Centre Check for Assessment Setup/ Infra
- c. Question Papers submission by Assessment Partner/ Freelance Assessor to FFSC
- d. FFSC to validate and approve the Question papers in line with NOS and PC.
- e. FFSC Affiliation and Project Assessment Approval
- f. Centre ready for Assessment intimation by Training Partner or by the assigned Neutral Assessment Centre

2. During assessment (on the Assessment Day):

The assessment can be conducted in offline, online or hybrid format depending on the feasibility and approvals from FFSC. Under either process the below guidelines are important to be compiled:

- a. Check the availability of the Lab Equipment for the particular Job Role as per the mode of conducting assessment.
- b. Candidate Validation: Confirm the Aadhar Card details of candidates
- c. Check the duration of the training
- d. Check the Assessment Start and End time to be as specified in documents
- e. Assessor/ Freelance Assessor must follow the assessment guidelines at all times.
- f. Intimation to FFSC Training and Assessment Monitoring Team for Assessment Quality Assurance checks.
- g. Ensure evidence of conducting assessment is gathered as per FFSC protocol:
 - i. Time-stamped and geo-tagged reporting of the assessor from assessment location
 - ii. Centre photographs with signboards and scheme-specific branding
 - iii. Biometric or manual attendance sheet (stamped by T.P.) of the trainees during the training period

- iv. Time-stamped and geotagged assessment (Theory + Viva + Practical) photographs and videos
- h. Required documentation for submissions to the FFSC

3. Post Assessment:

- a. Timely submission of the assessment documentation and feedback to FFSC
- b. Hard copies of the documents are stored
- c. Soft copies of the documents and photographs of the assessment are uploaded/accessed from Cloud Storage
- d. Soft copies of the documents and photographs of the assessment stored in the Hard Drives
- e. Any other compliance requirement as defined by FFSC

b. Industry Partner:

FFSC may engage the Industry Partners and the Subject Matter Experts to conduct the assessment of the candidates at various stages during the training programs.
